

Northwood Residents' Association

www.northwoodresidents.co.uk

WANTED

IT SPECIALIST

Applications are invited from individuals or companies to maintain our existing website and database and to provide onward development.

Northwood Residents' Association (NRA) was established in 1966 in order to maintain and develop a high standard of amenities and community spirit in Northwood, Middlesex. We have around 2,500 member households and 60 Business members.

Communication with our members is extremely important; we have an AGM and an occasional forum, but we mostly keep in touch with our members through our notice boards, triannual newsletters and our website. In addition, we have a membership database from which we can send out bulk emails to those members who have supplied their email address.

The NRA website. www.northwoodresidents.co.uk

Written in Joomla Version 3.9.5, last major restructuring executed in 2015. Initially, we would expect the successful applicant to recommend and carry out some improvements to the responsive layout and related aspects e.g. enable drop-down menus, replace the JavaScript fix for the carousel spacing and find a simpler way for creating photo galleries. Thereafter, we would call on him/her to make ad hoc improvements as the need arises.

The NRA Membership Database. Written in PHP Joomla modules, components and AJAX and utilising additional tables in the Joomla MySQL database, currently running on versions 7.3 and 5.6. Access to the database is via a link on the website and requires the user to supply their Joomla username and password. Initially, the system requires some refinement to make it more user-friendly and review security, e.g. prevent SQL injection, then on-going maintenance.

Applicants will need to demonstrate a thorough working knowledge of Joomla, PHP and MySQL. Will preferably be local to Northwood and show an interest in being involved with our community. They will need to provide references showing competence and value for money.

Payment

Payment is negotiable. We envisage a fixed price contract for initial review and updates, then payment by the hour for ad hoc maintenance and improvements.

To apply

Please send your CV to Tony Ellis
